SUMMARY

I am an experienced IT professional specializing in SAP BASIS Administration, Oracle Database, IBM AIX, Oracle Solaris, and SQL Server management. I have participated in large-scale projects across various industries, consistently implementing best practices to ensure the security, performance, and sustainability of critical systems. My expertise covers system installation, management, optimization, and troubleshooting in SAP, with a strong focus on enhancing business efficiency and reducing infrastructure costs through Oracle Database management.

Additionally, I have developed solutions for high availability and data integrity in IBM AIX and Oracle Solaris environments, as well as optimized SQL Server database structures for improved user experience. My passion for technology and strategic infrastructure management drives me to stay current with the latest advancements in the field.

EDUCATION

2024-Cont	Ms.D	Is. Sci. & Tech. University	Gaziantep, TR	Computer Eng. (With thesis)	Cont.
2010-2014	Bc.S	Sakarya University	Sakarya, TR	Computer Engineering	GPA: 3.17/4

EXPERIENCE

May 2025 – Aug 2025 - AI - Creating a Teacher with Artificial Intelligence **Gaziantep, TURKEY**

In my artificial intelligence project, I developed and delivered an AI module for a healthcare institution that simulates how doctors and nurses in the intensive care unit should respond during a case scenario. The project details can be provided upon request.

Oct 2024 - May 2025 - IT Department Manager – ARNEH Clothing and Textile **Gaziantep, TURKEY**

As the IT Manager, I am responsible for the entire IT infrastructure of our company, which has 14 branches.

My responsibilities include:

- **Windows Server management:** Monitoring daily backups, real-time performance tracking, server security, and accessibility.
- **NEBIM V3 ERP management:** Our company uses the NEBIM V3 ERP system, which enables sales tracking, stock management, campaign creation, inventory control, and reporting. I am responsible for ensuring the system runs smoothly, remains secure, and is properly authorized.
- **IT operations management:** I oversee all IT operations within the company, including the procurement of new hardware and software, as well as the planning and implementation of IT training programs.
- **Software development projects:** Managing and developing new software solutions such as the Branch-to-Branch Portal, Personnel Tracking System, and Help Desk Application.
- **Technical support:** Resolving daily system-related or user-related issues.

Feb 2021 - Oct 2024 - Computer Engineer - General Yazılım

Gaziantep, TURKEY

- Established and led my own IT consulting company.
- SAP BASIS Expertise: System installation, management, optimization, and security.
- Custom Software Development: Tailored solutions to meet specific customer needs.
- Web Development: Creating and managing attractive and functional websites.
- Technology Consulting: Strategic IT guidance for corporate clients.
- IT Support: Computer hardware repairs and network infrastructure setup.

Oct 2019 - Oct 2021 - Sap BASIS Consultant - NTT DATA - MERCEDES DAIMLER AG

Gaziantep, TURKEY

- Implemented and maintained SAP CUA for centralized user administration.
- Installed and managed SAP (ABAP) SSO and SAP (JAVA) SSO for seamless single sign-on capabilities.
- Handled SAP Authorization (User Management), ensuring secure and efficient access control.
- Led the installation and management of SAP S/4HANA, optimizing enterprise resource planning.
- Conducted SAP R/3 Installation and Management, ensuring legacy system support.
- SAP Neptune Inst. & Conf.
- Deployed and managed SAP FIORI for improved user experience across devices.
- Managed SAP FIORI Authorization (User Management) to maintain secure and streamlined user access.
- Executed SAP System Migrations to new hardware platforms, enhancing system performance and scalability.
- Automated SAP Backup and Recovery Procedures to ensure data integrity and reduce downtime.

Sep 2009 - May 2017 - Sap BASIS Consultant - SAP - Dep. of Inf. Systems

Ankara, TURKEY

- Focused on SAP User Management during the first year, handling user authorizations, resolving user issues, and managing help desk activities.
- Performed daily SAP BASIS tasks, including system health checks, request management, and routine system maintenance.
- Conducted System Copies and created new systems as needed.
- Led the upgrade of SAP R3 4.6C to ERP 6.0 EHP5 and SAP BW 3.0B to SAP BW 7.02
- Installed system add-ons, applied SAP Notes (SNOTES), and managed patch applications.
- Executed Kernel Upgrades to ensure system stability and performance.
- Successfully migrated SAP ERP systems from IBM Power (AIX 7.2) to Oracle SPARC (Solaris 11.2) with
- Oracle Real Application Cluster Database, enhancing system performance and reliability.

Feb 2012 - Feb 2012 - Sap BASIS Consultant - System Architect - BAE Systems

Portsmouth, ENGLAND

- As part of the ALIS F-35 project between the UK and Turkey, I was involved in managing the SAP network DMZ. This included configuring and maintaining IPsec VPN tunnels to secure data transmission, ensuring encrypted communication between sites, managing firewall policies, and supporting network segmentation to protect sensitive project data.

- SAP Enterprise Portal Fundamentals
- BW Operations and Performance
- SAP Fiori Introduction
- SAP Process Integration
- SAP TBT44: Mapping Business Process Management and Adapters

IBM

- AIX Security I - Host based
- AIX Security II – Intranet
- AIX Performance Management
- Total storage ESS implementation for open systems
- Tivoli Storage Manager
- AIX/R6000 Advanced System Administration
- AIX/R6000 System Administration I
- AIX/R6000 System Administration II
- Analyzing and Tuning Complex AIX 5L Performance Issues

ORACLE

- ORACLE Solaris 11 Security Administration
- ORACLE Solaris 11 Performance Management
- ORACLE Solaris 11 System Administration
- ORACLE Database 12C Dataguard Administration
- ORACLE Database 12C High availability New Features
- ORACLE Database 11G Performance Tuning
- ORACLE Database 11G Administration II
- ORACLE Database 11G Administration I

LANGUAGES

- **Turkish** - Native speaker
- **English** - Professional working proficiency
- **German** - Beginner (A2 level)
